## MOOD #11 - #21

Bei der Polsterung mit einer einzigen Farbe wird die Farbe des verwendeten Nähgarns an die Farbe Ihres Bezugsstoffes angepasst.

We use the sewing cord colour that fits the best with your cover colour choice.

### KONTRASTNAHT

Wenn Sie eine von - den auf Seite 9 genannten - 13 Farben als Nähgarn wählen, werden alle sichtbaren Nähte Ihres Stuhls mit einem dickeren Nähgarn in der gewählten Farbe ausgeführt, wodurch ein echter farblicher KONTRAST zum verwendeten Stoff entsteht.

### CONTRAST STITCHING

If you choose one of the 13 colours mentioned on page 9 as sewing thread, all visible seams of your chair will be made with a thicker sewing thread in the chosen colour, creating a real colour CONTRAST to the fabric used.

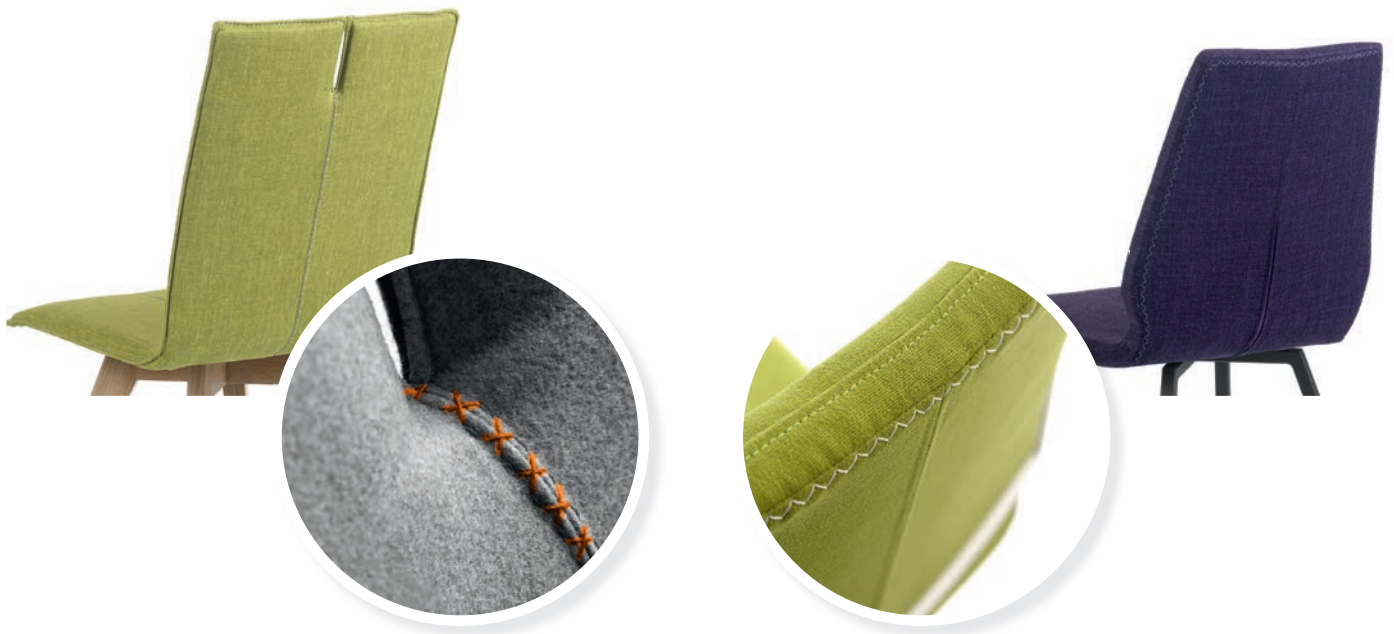

## MOOD #31 - #41 - #43

### ZIERNAHT

Wenn Sie eine der unten genannten 13 Farben als Nähgarn wählen, wird die Ziernaht mit einem dickeren Nähgarn in der gewählten Farbe ausgeführt, wodurch ein farblicher Kontrast zum Stoff und den Standardnähten entsteht. Die Standardnähte werden mit einem farblich zu Ihrem Bezugsstoff passenden Nähgarn genäht.

### DECORATIVE STITCHING

When you choose one of these 13 colours from the below offer, we will use this thicker sewing cord colour to sew the decorative stitching. All other «classic» sewing points will however be sewed using a tone on tone colour. In other words, the contrast will clearly be marked.
